

Sinclair has every right to broadcast Stolen Honor, the film investigating the impact of Senator Kerry's actions as a member of the Vietnam Veterans Against the War.

Senator Kerry has chosen to make his Vietnam experience a cornerstone of his election campaign. It is only right that the full story be told. Let the American electorate have the complete set of facts before they make their historic decision this fall.

I am pleased that you will not allow those who wish to subvert the complete truth to a campaign fairy tale blackmail you into submission. Keep up the good work.

John Steffee
